Your Phone System Your Way

HOSTED PBX PHONE SERVICE

What is Hosted PBX?

Hosted PBX VoIP is a scalable, fully managed off-site VOIP phone system that converges your voice communication system with your high-speed data line.

NewTel hosted turnkey system offers all the familiar functionality found in traditional small business key systems while your business benefits from minimal start-up costs, reduced total cost of ownership, flexible service plans and complete scalability, without the expense of purchasing and maintaining on premise equipment.
